PROFESSIONAL SUMMARY

Curious and detail-oriented Data Scientist and Data Engineer with over one year of hands-on experience in data science, machine learning, data engineering and business intelligence. Proven track record of building scalable data pipelines, deploying machine learning models, and delivering data-driven insights that improve operational efficiency. Passionate about leveraging advanced technologies to optimise operations, and drive innovation. Recognised for improving operational efficiency and enabling performance growth through data-driven recommendations. Committed to continuous learning and staying up to date with the latest industry trends and emerging technologies.

TECHNOLOGIES & TECHNICAL SKILLS

Programming Languages

- Python
- SAS

Databases & Data management

- DBeaver
- SQL (MySQL, PostgreSQL, SSMS)
- BigQuery (SQL Analytics)

Cloud & BI tools

- AWS, GCP, Azure Cloud Services
- Microsoft Power BI, Looker Studio
- Google Analytics

Big Data & Data Engineering

- Apache Spark (PySpark)
- Data Integration & Orchestration
- Technical Documentation & Reproducibility
- ETL & Data Pipelines
- Microsoft Fabric, Power Automate
- Azure DevOps, Linux, WinSCP
- Batch Scripting (Windows CMD)
- Version Control (Git, Github)

Data Science & Machine Learning/AI

- Libraries & Frameworks (Pandas, Numpy, Matplotlib, PyTorch, Scikit-learn, Tensorflow)
- Model Development & Training
- Classification, Regression, Clustering, Deep Learning, Computer Vision
- Predictive Modeling & Time Series Analysis
- Experimental Design (A/B Testing, Hypothesis Testing)
- Artificial Intelligence (NLP, LLMs, Transformers)

WORK EXPERIENCE

Data Engineer

MoMo from MTN (MTN Group Fintech) | December 2025 - Present

- Build and maintain data pipelines and automation workflows enabling seamless data ingestion from cloud platforms into fabric environment for analysis and reporting, reducing manual data processing by 100%
- Architect and build data marts tailored to business requirements, improving query performance by 70%+ while delivering a single source of truth for key MoMo performance metrics.
- Design and maintain interactive KPI dashboards for MoMo services, implementing data quality checks and validation rules improving data reliability by 95%.
- Automate secure SFTP file transfers using WinSCP, enabling reliable and auditable ingestion of 100+ files daily into the Microsoft Fabric environment while improving data pipeline efficiency by 100%.
- Query and consolidate data across different OpCo databases using DBeaver as a database client, supporting efficient data extraction and reporting.
- Document and maintain UAT processes, Source-to-Target Mapping (STTM), and data models, improving data consistency, transparency, and ease of system maintenance.
- Collaborate cross-functionally with team members to deliver data-driven recommendations, resulting in a 40% increase in operational efficiency.

Data Scientist

Mintek | March 2025 - November 2025

- Developed and deployed machine learning models to optimize organizational operations, achieving up to 20% improvement through A/B testing and algorithm fine-tuning.
- Designed and maintained interactive KPI dashboards, covering research outputs, HR metrics, divisional performance, and other key areas to support performance monitoring, reducing manual reporting time by 40%.
- Executed ETL processes to integrate data from diverse sources (SharePoint, databases, Excel), improving data consistency by 95%.
- Leveraged SQL to extract, transform, and analyze large datasets, optimizing query performance and ensuring 99% data accuracy.
- Translated complex data into impactful business insights, contributing to a 15% improvement in operational efficiency and enhanced strategic planning outcomes.
- Collaborated with cross-functional teams to deliver data-driven recommendations, resulting in a 40% increase in overall operational performance.

EDUCATION

Bachelor of Science Honours in Computer Science

University of Limpopo | February 2024 - December 2024

Bachelor of Science in Computer Science and Statistics

University of Limpopo | February 2020 - December 2023

Matric

Kgagatlou Secondary School | January 2015 - December 2019

CERTIFICATIONS

IBM Professional Certificates

- Data Analyst Professional Certificate
- Data Science Professional Certificate
- Data Engineering Professional Certificate
- Machine Learning Professional Certificate
- AWS Cloud Practitioner Essentials

Udemy Certificates

- IFRS 9 ECL Model Development & Validation
- Credit Risk Modelling & Credit Scoring Using ML
- Basel Accords (II, III, V): Risk Management & Banking Regulations
- Microsoft Power BI: Beginner to Advanced

SAS Certificate

- SAS Programming Essentials
